When you access this page, it will ask you to login to Google. You should do so with your child's school email account, which was on the bookmark that your child would have brought home last term. Contact your child's teacher if you are unable to find this and they will be able to let you know your child's email.

Your initial password is `Holland20` note: capital H.

This will take you to your child's class remote learning page and you will be able to access the learning activities set by your child's class teacher.

If you are using a tablet or mobile phone, you will need to install the Google Classroom App

Once installed you will be asked to login to Google (as above).

This will take you to your child's class remote learning page and you will be able to access the learning activities set by your child's class teacher.

Google Classroom

Any queries, don't hesitate to drop your child's class teacher an email so they can help!
